Evening		Awards Dinner	
---------	--	---------------	--

We are still trying to decide how best to “bundle” the sessions into Themes.

Potential Grouping of Sessions

Theme 1: Pastoral Systems

- Regeneration of rangelands/pastoral landscapes through FMNR, Agroforestry

Theme 2: Conflict Management

- Unearthing synergies: conflict transformation through land restoration/

Theme 3: Energy

- EverGreen Energy Systems integrated with food production
- Sustainable wood fuel for household energy production

Theme 4: Land Restoration and Sustainability

- Land restoration for resilience building, climate change adaptation, drought management
- Land Restoration for food security and nutrition
- Improved soils for improved lives – how FMNR & agroforestry area contribute to better soils
- Promoting youth and women - Employment and Empowerment

- Agroforestry as a global land use option: the view from Europe

Theme 5: Policy dimensions

- Policy enabling environment to support NRM and agroforestry

Theme 6: Sustainable value chains and systems

- Value chains and business development in tree-based systems
- Economic development opportunities to drive restoration
- Engaging the Private Sector in Land Restoration
- Fertiliser Subsidies, an alternative?

Theme 7: Spreading the Word

- Mass media and communications role in scaling-up: radio, participatory videos, national media.
- Grassroots methodologies for scaling-up: Farmer-to-Farmer diffusion

Theme 8: Action Plans, Targets, Evidence and Monitoring Spread

- Tracking the spread – tools and systems for monitoring the spread of FMNR & land restoration successes
- Landscape approaches to scaling-up/ African Landscapes Action Plan
- Meeting the AFR100 restoration commitments cost-effectively at a mass scale – the role of natural regeneration and evergreening/agroforestry practices
- Regreening Africa at scale: science at the service of scaling efforts
